

E-PEDAL POWER

Easy bike travel for all

DoTheRideThing.co.uk

Embrace easy bike travel with e-pedal power

It's often the go-to choice to jump in the car however far you need to travel. An e-bike is a great alternative for all types of journeys – your daily commute, the school run or a fun day out!

Less Effort

The electric assistance from e-bikes takes the strain. Helping you reach where you want to be with less effort and more joy. Now everyone can enjoy the freedom of easy bike travel!

Save Money

Did you know that daily trips by e-bike rather than by car can save you money too? Reduced running costs and better energy efficiency help you go further for less.

Try An E-Bike

Try out an e-bike for yourself. Local hubs offer a range of e-bikes and adaptive cycles, along with maintenance and training for cyclists of all skill levels.
