

# E-PEDAL POWER

## Easy bike travel for all

DO THE  
RIDE  
THING

It's often the go-to choice to jump in the car however far you need to travel. An e-bike is a great alternative for all types of journeys – the school run, your daily commute, a fun day out or a quick trip to the shops. E-bikes can take you further with less effort and more joy.

### Try out an e-bike for yourself

Local hubs offer a range of e-bikes and adaptive cycles, along with maintenance and training for cyclists of all skill levels.
